

May 22, 2020 – 4 PM

Text of Blast Call Notification to all resident families and employees via VoiceFriend.

Hello. It's Bill Bogdanovich, from Broad Reach.

With the last group of employees making the journey to 4 C's for COVID testing, we've exceeded the state's requirement for 90% both residents and staff.

As you know, the residents were done a few weeks ago so there are no new results to report there. All of the results in on Liberty Commons and Victorian staff are negative, though there are 3 or 4 more pending this afternoon.

Residents have really enjoyed going outside, so it's been great to be able to facilitate that after so many weeks of strict isolation protocols. With the exception of staff caring for new admissions, we're also cleared to be at a "mask only" level of PPE, so we are looking less like creatures from Ghostbusters with gowns and face shields.

Our attention to the important details remains steadfast. This was affirmed by a recent visit from DPH to measure our compliance with new infection control standards put forth by the state. The DPH report is posted on our website on the COVID-19 information link, along with the text of this call, so you can share this update with others if you would like. Our dedicated information line for general questions on COVID19 is 508.945.1611 x 378. Leave your name and a number for a callback within the next business day. You may also submit an inquiry by email to info@broadreachhealth.org.

In closing for this holiday weekend, we remember those lost, as we always do on Memorial Day, with special consideration for those whose lives have been impacted by COVID-19. Please continue to keep us in your thoughts, and know that we are doing the same for you.
