

BROAD REACH
LIBERTY COMMONS

May 1, 2020 – 4:00 PM

Text of Blast Call Notification to all resident families and employees via VoiceFriend.

Hello,

It's Bill Bogdanovich, from Broad Reach. I'll begin today's report with the final results of the global testing on the Stage Harbor unit. After a resident there tested positive on Monday, all of our other Stage Harbor residents were tested. The last of those results came in late yesterday, and they were all negative. In addition, the resident who was positive on Monday has been retested, and that resident is also negative. This is a very good indication that staff's infection prevention efforts are making a difference!

Next steps in resident testing brought us to the Oyster Pond unit. Forty four residents were tested. We have one positive result in. That resident has been moved into the COVID treatment space in the rehabilitation clinic, and is being cared for by our designated team that is only working there. We expect the remainder of the results in by Monday.

So since this all started, we've tested 103 residents, and all but two have been negative.

We have continued staff testing through the Cape Cod Community College site, with thirty-eight tests so far. Results are in on the first twenty seven, and they are all negative. That leaves eleven results pending. And more continue to be scheduled.

We are working toward finalizing plans for on-site testing of the remaining staff as well as the Victorian residents next week.

Please remember that the dedicated information line for your general questions on COVID19 is always available at 508.945.1611 x 378. You will be asked to leave your name and a number for a callback within the next business day. You may also submit an inquiry by email to info@broadreachhealth.org. These updates are also posted on the COVID-19 information link of broadreachhealth.org, so you can share this update with others if you would like.

Thank you for your continued support.
