

May 7, 2020 – 4PM

Text of Blast Call Notification to all resident families and employees via VoiceFriend.

Good afternoon,

It's Bill Bogdanovich, from Broad Reach.

Our update today again begins with test results. As you know we continue to test on an ongoing basis, so there will continue to be pending results each day. Since yesterday, one of the pending resident tests has come back and is negative. There are six pending as we end the day.

One resident previously reported as COVID positive remains in the care of the dedicated team, cared for in the separate COVID space in the rehab clinic.

On a lighter note, staff was generously thanked by one of our homecare partners with what we've called "Pandemic Pizza", though it was from a local shop. It seemed pizza could be a fun change of pace for residents and patients, too, so you'll see almost 100 empty pizza boxes in our recycle tonight!

As always, I remind you that our dedicated information line for general questions on COVID19 is 508.945.1611 x 378. You are asked to leave your name and a number for a callback, within the next business day. You may also submit an inquiry by email to info@broadreachhealth.org. These updates are also posted on the COVID-19 information link of broadreachhealth.org, so you can share this update with others if you would like.

Have a good evening. We'll be checking in tomorrow, of course!
