

**May 10, 2020 – 11 AM**

Text of Blast Call Notification to all resident families and employees via VoiceFriend.

Good morning,

It's Bill Bogdanovich, from Broad Reach.

It's a different kind of Mother's Day for sure this year. As this call goes out, many of you would likely have been preparing for a visit to Liberty Commons or The Victorian. We'd have been welcoming you with various forms of brunches, teas or desserts, if past years are any indication, and the many moms in our workforce would have been juggling their plans to hopefully be able to fit in their family time, too.

With the imposed separation because of COVID-19, it's harder to feel the connection that a day like Mother's Day usually affords. Calls, facetime, flowers and cards notwithstanding, we spent time asking your moms to do what moms do all so well – offer up a little advice, and with that some reassurance. Their responses belie the strength that they've demonstrated in this challenge every day, and undoubtedly their whole lives.

There were too many to try to report on in this time-limited message, so we've compiled a video tribute to you all from your moms. It's featured on our website, [www.broadreachhealth.org](http://www.broadreachhealth.org), and we'll have a link on the Broad Reach Healthcare Facebook page shortly.

With no new test results or other COVID matters to report on today, I remind you that our dedicated information line for general questions on COVID19 is 508.945.1611 x 378. You are asked to leave your name and a number for a callback, within the next business day. You may also submit an inquiry by email to [info@broadreachhealth.org](mailto:info@broadreachhealth.org). These updates are also posted on the COVID-19 information link of [broadreachhealth.org](http://broadreachhealth.org), so you can share this update with others if you would like.
