

July 10, 2020 – 2PM -

Text of Blast Call Notification to all resident families and employees via VoiceFriend.

Hello. It's Bill Bogdanovich, from Broad Reach. I will begin again today with the key statistics update:

- There continue to be no confirmed cases of COVID-19 among our patients, residents or staff.
- Testing continues to occur when someone has symptoms or when a test is required for other medical screening purposes. One resident was tested for medical clearance, and two tested based on symptoms. Two of those results are negative and the other is still pending at this time.
- Yesterday, we began a new round of staff baseline testing, with 55 staff tested so far, and the remained being tested in the coming week. We thank our community partners at Cape Cod Healthcare for processing all of our results locally. It helps us get them back more quickly, too.
- Depending on the results of this baseline testing, at a minimum, 30% of staff will be required to be retested every two weeks. If there are any positive Liberty Commons or Victorian staff results in this baseline testing, testing frequency is increased, and asymptomatic resident testing also starts. We will notify you right away if there are any positive Liberty Commons or Victorian employees as this new baseline is wrapped up.
- Next week, we will reintroduce what regulators have come to call communal dining and recreation for Stage Harbor and Oyster Pond residents at Liberty Commons as well as at The Victorian. It will be a bit different than what people have been used to, in that there are limits to the number of people in spaces and strictly maintaining that six foot social distancing is crucial, even at dining tables. Staff have been hard at work to prepare, and I am sure the ability to be out and about a bit more will be attractive to residents. We'll post those protocols at <https://libertycommons.org/coronavirus-at-broadreach/> for your reference.
- Our scheduled 1:1 outdoor visits have continued, and the weather has been pretty cooperative. Please remember to schedule those visits directly with Steve Franco at Liberty Commons and Stefanie Murray at The Victorian, and be sure to let Steve or Stef know directly if you have to cancel a scheduled visit.

So we will keep you posted on the staff baseline testing, and continue to thank you for your continued support and patience. As always, our dedicated information line for general questions on COVID19 remains available at 508.945.1611 x 378. You are asked to leave your name and a number for a callback, which will come within the next business day. You may also submit an inquiry by email to [info@broadreachhealth.org](mailto:info@broadreachhealth.org).
